# 5 – IFATCA HISTORY

*Note: An excellent narration of the first 40 years of IFATCA's foundation and growth has been written and produced by Neil Vidler, Australia. Title: UNDER CONTROL (ISBN 0-646-40574-8).*

## 1. THE FOUNDATION

1.1. The International Federation of Air Traffic Controllers' Associations was constituted in Amsterdam on 19th and 20th October 1961, as a result of the efforts of a group of air traffic controllers to federate and further the interests of the air traffic control profession at the international level.

1.2. Although there had been discussions on the subject at various national and international meetings and conferences where controllers of various nationalities met each other, it was in 1959 that the Swiss Association suggested that a meeting be held to explore the possibilities of worldwide federation. The meeting was held in Frankfurt, Federal Republic of Germany. It was felt at the time that it was too early to expect such far-flung interest, and, accordingly, plans were made to draft a constitution for a European Federation only.

1.3. Although many Member Associations serve their members in a dual role of both professional and staff association, others are constituted solely and strictly within professional interests of air traffic control and kindred subjects. The principle was, therefore, accepted that the common interest of all the associations and guilds within the Federation would be a professional one, and the Frankfurt meeting subsequently declared its intention to found the European Federation of Air Traffic Controllers' Associations.

1.4. A working group was appointed to prepare a draft constitution, and this group completed its task by mid-1960. The Convention, Constitution and By-Laws were duly ratified by 12 Founder Member Associations:

Austria	France	Luxembourg
Belgium	Germany (F.R.)	Netherlands
Denmark	Iceland	Norway
Finland	Ireland	Switzerland

The Constitutional Conference, held in Amsterdam in 1961, finally decided to seek world-wide ATC interest and constitute the Federation as the International Federation of Air Traffic Controllers' Associations, with the aim of furtherance of safe and efficient air navigation and the protection of their common professional interests.

1.5. The first Officers elected to the Executive Board, at the time called "Board of Officers", were:

Position	Name	Country
